PROFILE SUMMARY

Diploma graduate in Information Management with over two years of experience in IT Support, System Administration, and Infrastructure Monitoring. Skilled in hardware and software troubleshooting, LAN networking, CCTV, Building Automation Systems (BAS), Access Control, SAP, and GreatDay HR. Strong problem-solving skills with experience collaborating across departments to support reliable IT operations.

WORK EXPERIENCE

Sinarmas Land Plaza Thamrin, Engineering Administrator **January 2025 - May 2026**

- Supported building systems and infrastructure operations, including monitoring, maintenance, and troubleshooting of technical equipment.
- Managed and processed operational data using SAP to support daily business activities.
- Administered employee operational requirements and attendance management through the GreatDay HR platform.
- Monitored electricity consumption (KWh) and related utility systems across multiple buildings.
- Administered access control systems (Pro-Watch and E-Dot Win), including user account management, access configuration, and permissions control.
- Supported the operation and monitoring of the Building Automation System (BAS) to ensure optimal system performance.
- Monitored, maintained, and troubleshoot CCTV systems, including both IP-based and analog cameras.
- Performed LAN network troubleshooting to maintain stable and efficient office connectivity.
- Installed, configured, and maintained printers to support operational requirements.
- Installed and configured IT equipment, including webcams and related peripherals, to support meetings and business operations.
- Provided technical support for internal events, meetings, and day-to-day operational activities.
- Resolved technical issues during meetings, including HDMI connectivity, display configuration, projectors, and audiovisual equipment.
- Prepared technical reports and maintained operational documentation on a regular basis.

PT. Bringin Gigantara, IT Ops / Monitoring **December 2023 - April 2024**

- Monitored and supported ATM and CRM machine operations across more than 11,000 units nationwide.
 - Performed first-level troubleshooting and coordinated with technical teams to resolve operational incidents.
 - Analyzed system alerts, operational performance, and incident reports using Microsoft Excel.
 - Managed maintenance tickets and ensured timely escalation and resolution of technical issues.
 - Prepared operational reports and communicated incident updates to relevant stakeholders.
-

EDUCATION

LP3I Polytechnic Jakarta

August 2021 - September 2024

Diploma in Information Management

- Developed web applications using PHP, JavaScript, and MySQL.
 - Built simple mobile applications using React Native.
 - Performed basic network configuration using Cisco and Mikrotik devices.
 - Created and tested network simulations using Cisco Packet Tracer.
-

SKILLS

- **System Administration & Technical Support**
 - System Monitoring & Troubleshooting
 - User Support & Incident Resolution
 - Access Control Administration (Pro-Watch, E-Dot Win)
 - CCTV Systems (IP & Analog)
 - Building Automation System (BAS)
 - Printer & Peripheral Installation
 - SAP
 - Microsoft Office & Google Workspace
- **Networking**
 - TCP/IP Fundamentals
 - LAN Troubleshooting
 - Basic Routing & Switching
 - Cisco Packet Tracer
 - MikroTik Fundamentals (DHCP, NAT, IP Addressing)
 - Firewall & VPN Fundamentals
 - OSI Model & Network Connectivity Analysis
- **Programming & Database**
 - PHP, JavaScript
 - React Native
 - MySQL
- **Designs & Additional Skills**
 - Adobe Photoshop
 - Graphic Design (Poster, Clothing Design)
 - Basic Audio Visual Setup
- **Languages:** Indonesian (Native), English (Working Proficiency)
